

ADHD Symposium Speakers, Presenters, Panelists

- **Ryan Bilbo** - *GIS Manager, Louisiana Department of Health & Hospitals*

Mr. Bilbo earned a BA in Economics and Masters in Public Administration from LSU, and has 11 years of Geographic Information Systems (GIS) and Business Intelligence experience.

- **Allison Boothe, PhD** – *Clinical Psychologist & Assistant Professor in the Department of Psychiatry and Behavioral Sciences, Tulane University School of Medicine*

Dr. Boothe is also the director of the Louisiana Quality Start Mental Health Consultation to Childcare Centers Program and the Cornerstone Mental Health Consultation Program, which provides consultation to elementary schools in New Orleans. She completed a post-doctoral fellowship in Infant and Early Childhood Mental Health at Tulane. Dr. Boothe received her Ph.D. from the University of Alabama in child and adolescent clinical psychology. She holds two master's degrees—one in child and adolescent clinical psychology from the University of Alabama and one in marriage and family clinical psychology from Pepperdine University. She graduated from Louisiana State University with a B.S. in Psychology. Dr. Boothe co-developed the Louisiana early childhood mental health consultation model (ECMHC), which focuses on supporting young children's social-emotional development in the context of early education environments. Dr. Boothe has been asked to consult with many states as they develop their ECMHC program, and she has been invited to speak about the Louisiana ECMHC model to many national groups including the QRIS National Learning Network, The American Academy of Pediatrics, and the US Office of Family Assistance.

- **Jeff Capobianco, PhD** - *Director of Practice Improvement, National Council for Behavioral Health*

Jeff Capobianco has 20 years of clinical and administrative experience in healthcare, with extensive background in primary and behavioral healthcare integration, evidence-based practice implementation, use of learning organizations, and Lean Six Sigma methodologies. He ran integrated health and family psychoeducation implementation learning communities and chaired the Michigan Family Psychoeducation implementation steering committee. He was a research investigator at the University of Michigan School of Social Work and the director of research and new program development for the University of Michigan Health System-based Washtenaw Community Health Organization, a four-county behavioral health managed care organization. He is co-author of *Implementing Evidence-based Practices in Mental Health: A Field Guide*, published by the National Council. Capobianco consults with behavioral health organizations on using evaluations and performance measurements in integrated health efforts.

- **Richard Dalton, MD** - *Chief Medical Officer, Magellan Healthcare of Louisiana*

Dr. Dalton graduated from LSU-New Orleans School of Medicine in 1975 and completed his general psychiatry residency and child/adolescent psychiatry fellowship at Duke University in 1979. Following his training, he served as an assistant professor of psychiatry at the University of North Carolina SOM for three years before transferring to Tulane University SOM, where he was a professor of psychiatry and pediatrics for 32 years. He retired from Tulane in 2013. Among his clinical and administrative responsibilities through the years, Dr Dalton served as the chair of Tulane's Ethics Committee, medical director of The Office of Mental Health (LA DHH), director of a SAMHSA System of Care grant (LA-YES), and clinical director of the LSU Juvenile Justice Program, as well as a member of the LA Children's Cabinet Advisory Board, a member of the LA Mental Health-Juvenile Justice Board and a member of the Board of Advisors for CASA. Dr Dalton has published one book about the psychiatric hospitalization of children and over 60 peer-reviewed articles and book chapters.

- **Mary Margaret Gleason, MD, FAPP** - *Director for Infant Mental Health Services, Tulane University*

A Pediatrician and Child and Adolescent Psychiatrist, Dr. Gleason serves as the director for Tulane Infant Mental Health Services. She is interested in the clinical care of high risk young children and their families. In her academic work, Dr. Gleason is interested in early identification of childhood mental health disorders, early childhood mental health disorders in high risk children, especially reactive attachment disorder, and the factors that shape treatment decisions by families and providers. She has developed a screening tool to identify young children at risk for mental health concerns (Early Childhood Screening Assessment), which has been endorsed by the American Academy of Pediatrics. She has also coordinated an effort to define the evidence base related to preschool medications and to develop evidence-informed treatment algorithms to guide responsible treatment decisions. In addition to other leadership positions in child psychiatry, she serves on the American Academy of Pediatrics Early Brain and Child Development Leadership Workgroup. With colleagues, she received the 2011 Norbert and Charlotte Rieger Award for Scientific Achievement and is on the editorial board of the Journal of the American Academy of Child and Adolescent Psychiatry.

- **Kimberly Gordon, MD** – *Assistant Professor of Psychiatry and Behavioral Sciences, Tulane University School of Medicine; Clinical Supervisor, Tulane University Child Psychiatry Residency Training Program; and Psychiatry Consultant to Metropolitan Human Services District*

Joining Tulane University staff in 2012, Dr. Gordon is an adult, child and adolescent psychiatrist who serves as clinical supervisor for an outpatient complicated ADHD and Trauma Specialty Clinic in the Child and Adolescent Psychiatric Services Division of Metropolitan Human Services District. Dr. Gordon's interest is developing programs to eliminate disparities in health care that disproportionately affect underserved and minority communities, and research in the areas of addiction, trauma and resiliency for women and children with mood and anxiety disorders. Dr. Gordon's academic interests include teaching residents how to practice evidence based culturally informed care in urban communities.

- **Kristopher Kaliebe, MD** – *Assistant Professor of Psychiatry, Louisiana State University Health Sciences Center (LSUHSC)*

Dr. Kaliebe is Board Certified in Psychiatry, Child and Adolescent Psychiatry and Forensic Psychiatry. At LSUHSC in New Orleans, he instructs medical students, psychiatry residents and child and adolescent psychiatry fellows. From 2010 to 2012 he served as LSUHSC Child and Adolescent fellowship training director. He has been a member of the LSU Academy for Academic Scholarship since 2008. Dr. Kaliebe's clinical work has been primarily in Federally Qualified Health Centers and within Louisiana's Juvenile Corrections system.

Dr. Kaliebe currently serves as President of the Louisiana Council for Child Psychiatry. He is co-chair of the Media committee in the American Academy of Child and Adolescent Psychiatry. Dr. Kaliebe has been named amongst Louisiana "Top Doctors" for Child and Adolescent Psychiatry annually since 2007.

- **Kathy H. Kliebert** - *Secretary, Louisiana Department of Health and Hospitals*

Appointed by Louisiana Governor Bobby Jindal, Kathy H. Kliebert became secretary of the state's Department of Health and Hospitals in March 2013 after a long-term career in public service in Louisiana. She has been a leader in the Department for more than 25 years, where she has led efforts to promote independent living for individuals with developmental disabilities and transform behavioral health care services for hundreds of thousands of Louisiana residents. Prior to her appointment as Secretary, Kliebert served as the Department's Deputy Secretary, where she provided leadership to the agency's program offices, including the Offices for Citizens with Developmental Disabilities, Behavioral Health, Public Health, and Aging and Adult Services. She

also served as the coordinator for DHH's Human Services Interagency Council (HSIC) which convenes the state's local governing entities that provide developmental disability and behavioral health services.

Prior to her appointment as Deputy Secretary in 2011, Kliebert led the Office of Behavioral Health, where she managed the merger of the Department's mental health and addictive disorders offices to better serve Louisianans in need. She spearheaded the development and implementation of Louisiana's new approach to both delivering and financing behavioral health services for approximately one million Louisiana children and adults through a fully integrated, single-point-of-entry system.

Kliebert has dedicated the bulk of career to serving individuals with developmental disabilities through the Department's Office for Citizens with Developmental Disabilities (OCDD), which she led as Assistant Secretary for six years. During her tenure, OCDD successfully completed a multi-year transition to move individuals out of institutions and into community-based services, reducing the number of individuals living in institutions by more than 26 percent. Prior to leading the office, Kliebert was diversification director of the Metropolitan/Peltier-Lawless Development Centers in New Orleans and Thibodaux, where she led the expansion of community-based options for people with developmental disabilities. She has over 20 years of experience as a licensed clinical social worker and has a master's degree in social work. She also serves as Secretary of the Louisiana Educational Television Board and as a member of the Louisiana Children's Cabinet.

- **Holly Paczak** – *Project Coordinator and Educational Consultant, Teams Intervening Early to Reach all Students (TIERS)*

In her role as consultant, Ms. Paczak provides technical assistance and coaching to school and district level staff. Holly has developed school-wide, classroom level, and individual student level programs and interventions to improve academics and behavior. She is experienced in evaluating compliance of special education practices that are current with federal and state requirements. She manages the design and implementation of technological applications for professional development training and data use for the TIERS group and serves as a faculty member for the Louisiana School Psychology Internship Consortium. Holly has made presentations at the national, regional, and state levels. She received her Educational Specialist degree in School Psychology from Mississippi State University.

- **Kanna Page** - *Director of Practice Management at Metropolitan Human Services District*

Ms. Page provides daily oversight for the agency's four Adult Behavioral Health Centers and two Child/Youth Behavioral Health Centers servicing Orleans, Saint Bernard and Plaquemines Parishes. Her background includes more than 10 years of experience in healthcare management encompassing through administrative roles where she consistently improved productivity directly related to patient care.

Prior to joining Metropolitan, Ms. Page worked in ambulatory care at Ochsner Health System where she led the project to increase access to comprehensive oncology services through the design and planning of a new healthcare facility among many other responsibilities. Since joining Metropolitan, she's successfully worked to obtain the agency's 3 year CARF accreditation along with the re-design and implementation of the agency's electronic medical record.

Ms. Page received her bachelor's degree in Health Sciences from Howard University and her master's degree in Healthcare Administration from Tulane's School of Public Health and Tropical Medicine. She is a Tulane Epstein Leadership Award recipient and was recently chosen for the National Council for Behavioral Health's Addressing Health Disparities Leadership Program.

- **Susanna Visser, DrPH, MS** - *Acting Associate Director of Science, Division of Human Development and Disability, National Center on Birth Defects and Disabilities, Centers for Disease Control and Prevention*

Susanna Visser, DrPH, MS is the Lead Epidemiologist of the Child Development Studies Team in the Division of Human Development and Disability at CDC's National Center on Birth Defects and Developmental Disabilities. Dr. Visser leads CDC's ADHD program. Her expertise includes the design and analysis of population-based epidemiological studies of neurobehavioral and mental health conditions. Lead author publications include research related to generating population-based estimates of ADHD, rates of medication treatment among youth with ADHD, and factors associated with ADHD medication treatment. Dr. Visser served as the committee epidemiologist for the American Academy of Pediatrics' most recent ADHD diagnostic and treatment guidelines committee. Dr. Visser currently directs community-based epidemiologic studies of mental disorders of childhood, including ADHD, a national follow-back survey of children with ADHD and Tourette syndrome, and participates in federal longitudinal research investigating developmental outcomes of youth with physical and social risk factors.

- **Betsy Wilks, LCSW** – *Program Manager, Louisiana LAUNCH*

Ms. Wilks is a Licensed Clinical Social Worker, a Board Approved Clinical Supervisor, a member of the Academy of Certified Social Workers, and a Board Certified Diplomate in Clinical Social Work. Betsy has over twenty years of clinical experience working with individuals and families in the Baton Rouge community.

Betsy serves on a SAMSHA grant management team for Louisiana LAUNCH, a joint venture between the Department of Health and Hospitals' Offices of Public Health and Behavioral Health. LAUNCH proposes to advance a coordinated young child wellness system in the state overall, with an initial focus on the south central region of Louisiana. Betsy also has a private practice, providing therapy, workshops, supervision, and consultation

Betsy most recently served as the state clinical director for Tamber Health, a company providing and integrating behavioral health services into primary care settings. Prior to her work with Tamber Health, she served as behavioral science faculty at the Family Medicine Residency Program of the Baton Rouge General Health System for five years. During that time she was immersed in the development of integrating behavioral health into the training program for primary care physicians. She was awarded the Faculty of the Year teaching award in 2012.

Betsy has also long been involved in the education of clinical social workers. She has served as a supervisor for social work interns from Louisiana State University's Graduate School of Social Work for many years. Betsy also supervises new Master of Social Work graduates working towards independent clinical licensure. Betsy was adjunct faculty for Louisiana State University School of Social Work for several years and continues to serve as a guest lecturer.

Betsy has worked in a variety of settings as a clinical social worker. She worked for many years as a therapist in private practice. She has also led Myers-Briggs workshops for businesses, schools, social service agencies, and churches. Betsy has also worked in the adoption field, served many years as a member of a hospice team, and worked as a parent educator. Betsy has been an active leader in many professional organizations, including chairing the Baton Rouge Region of the National Association of Social Workers (NASW) and serving on the NASW-LA Chapter state board. Betsy has given numerous invited presentations to professional associations, health care organizations, schools and business. Betsy was awarded the Social Work Leadership award by the Baton Rouge Region of NASW-LA in 2013.
